Packaging Materials for Product Development

A BRAND DESIGNED TO REINFORCE THE IDENTITY OF ALL PACKAGING MATERIALS ON SHOW AT IPACK-IMA.

A broad-based concept that will feature extensively in the exhibition areas.

Furthermore, a special area showcasing innovative materials, premium packaging and sustainable packaging.

Main Partner IPACK-Mat:

ipack ima•lab

Solutions for Product Testing & Certification

New exhibition section of IPACK-Mat for certification and research laboratories and institutes specialized in quality control and compliance related to FCMs regulations, materials and items in contact with food.

Main Partner Ipack-Ima lab:

Digital transformation

A fair in presence, which integrates the traditional model of “physical” event with new digital networking opportunities.

IPACK-IMA launches the **new version of MYipackima**, the innovative match making platform where exhibitors and buyers can profile and find the perfect match to develop new opportunities.

Whether they are stand appointments or virtual meetings, the tool allows you to enhance the contact opportunities in an even more selected way between companies and potential partners before, during and after the fair.

At the center of the digital transformation platform there are also **webinars and virtual appointments** with sector experts and professionals, to offer an even more complete overview of the supply chain .
